Lecture 9

Feb 19-8:47 AM

Consider a Uniform Prob. dist. for all values between 0 and 40.

SG 17
&
SG 18

① $P(x=4) = 0$

② $P(x > 37.5)$
 $= (40 - 37.5) \cdot \frac{1}{40}$
 $= 2.5 \cdot \frac{1}{40} = \frac{2.5}{40} = \frac{1}{16}$

③ Find $x = Q_3$. Round to whole #.

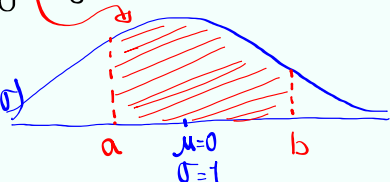

$(Q_3 - 0) \cdot \frac{1}{40} = .75$
 $Q_3 - 0 = 40(.75)$
 $Q_3 = 30$

Apr 25-8:04 AM

Standard Normal Prob. Dist.:

- 1) we use z , $P(z=c)=0$
- 2) Graph is symmetric, bell-shape, total area = 1.
- 3) Mean = Mode = Median
- 4) $\mu=0$, $\sigma=1$
- 5) $P(a < z < b)$ is the area of the corresponding region within the graph.

2nd VARS
normalcdf(L,U, μ , σ)
Paste Enter

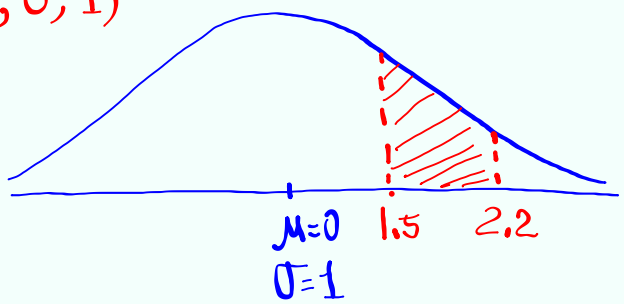

Drawing, Labeling, Shading, Full TI
Command required.

Apr 25-8:12 AM

Find $P(1.5 < z < 2.2)$

$= \text{normalcdf}(1.5, 2.2, 0, 1)$

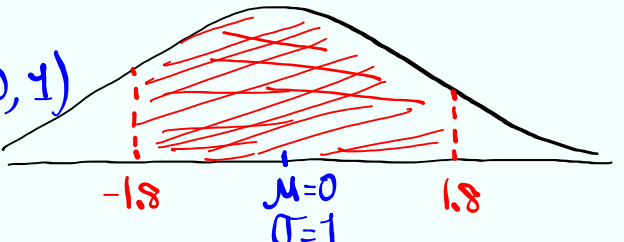

$= .053$

$P(-1.8 < z < 1.8)$

$= \text{normalcdf}(-1.8, 1.8, 0, 1)$

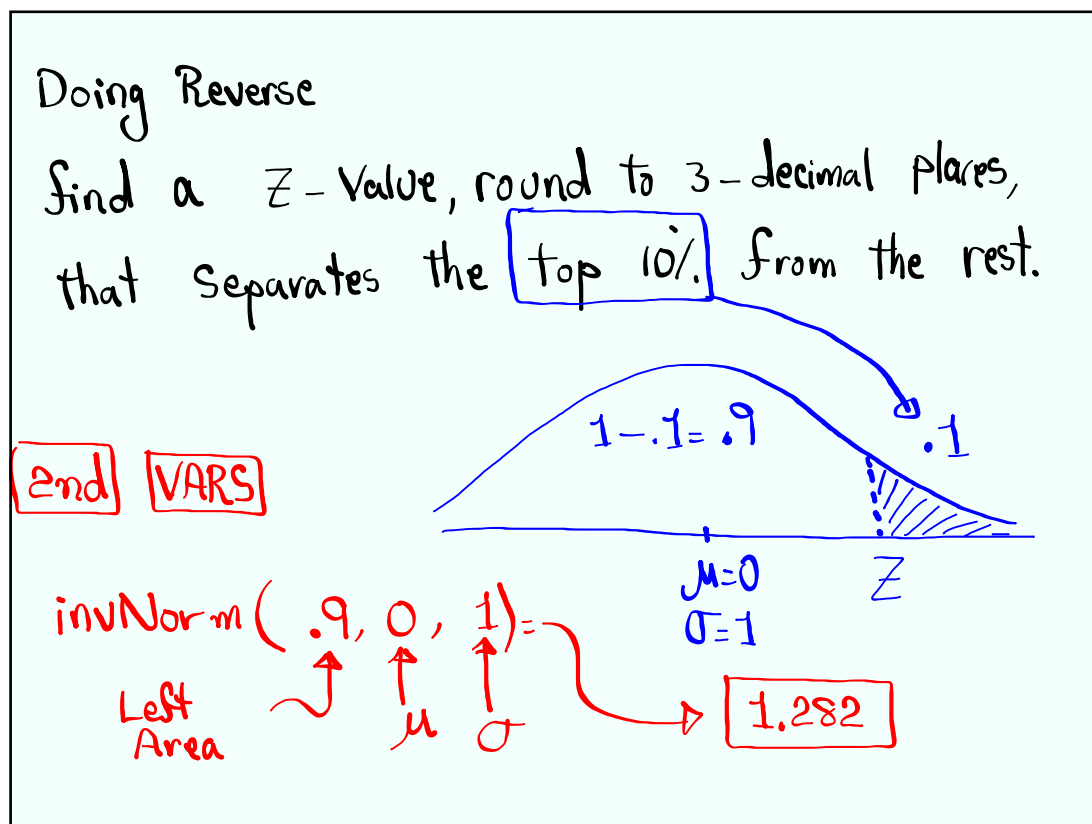

$(-)$ $= .928$

Apr 25-8:19 AM

Apr 25-8:24 AM

Apr 25-8:31 AM

Apr 25-8:36 AM

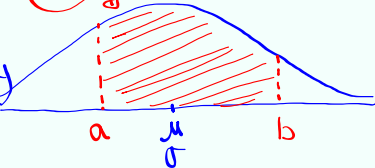

Apr 25-8:39 AM

Normal Prob. Dist.:

- 1) we use X , $P(X=c)=0$
- 2) Graph is symmetric, bell-shape, total area = 1.
- 3) Mean = Mode = Median
- 4) μ & σ are given in the problem.
- 5) $P(a < X < b)$ is the area of the corresponding region within the graph.

2nd VARS
normalcdf(L,U, μ , σ)
Paste Enter

Drawing, Labeling, Shading, Full TI
Command required. $N(\mu, \sigma)$

Apr 25-8:12 AM

Given $N(82, 6)$

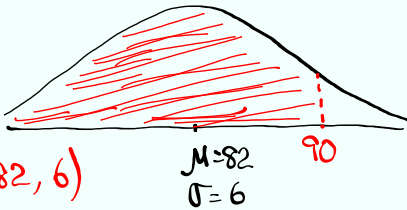

Normal Prob. Dist. μ σ

Find $P(X < 90)$

$= \text{normalcdf}(-E99, 90, 82, 6)$

$(-)$ 2nd 9

$= .909$

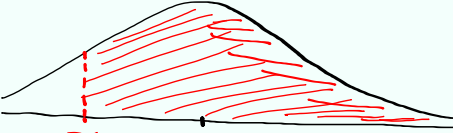

$\mu = 82$
 $\sigma = 6$
90

Find $P(X > 76)$

$= \text{normalcdf}(76, E99, 82, 6)$

$= .841$

$\mu = 82$
 $\sigma = 6$
76

Apr 25-8:50 AM

Find two x -values, Round to whole number, that
Separate the middle 90% from the rest.

$$1 - .9 = .1$$

$$.1 \div 2 = .05$$

$$x_1 = P_5 = \text{invNorm}(.05, 82, 6) = 72.131 \approx \boxed{72}$$

$$x_2 = P_{95} = \text{invNorm}(.95, 82, 6) = 91.869 \approx \boxed{92}$$

Apr 25-8:57 AM

Credit Scores are normally dist. with
 $\mu = 750$ and $\sigma = 50$. $N(750, 50)$

If one person is randomly selected,
Find the prob. that his/her Credit Score
is between 700 and 825.

Find Q_3 of Credit Scores, Round to whole #.
75% below
25% above

Apr 25-9:03 AM
